## WORK EXPERIENCE

---

### Citizens Bank(Current)

Jun 2017 – Present

*Application Developer*

*Cleveland, OH*

- Work with a highly customized version of "Empower for .NET" using C#, .NET framework, & SQL
- Monitor system and provide resource for defect fixes, debugging, or creation of new functionality
- Developer-Ops role of maintaining source control of several branches including but not limited to QA testing, product development, and production level code base
- Oversee code promotions to all environments from testing environments to production level environments
- Creating SSIS tasks to further reporting capabilities for business line

### Assurex Health

Jan 2015 – Sept 2015

*Software Engineer*

*Mason, OH*

- Member of an Agile Product Development team which delivered a "greenfield" web application to scientists to better monitor genetic readings from lab equipment
- Developed and wrote code using C#, .NET framework, JavaScript, SQL
- Gained full-stack experience working with back-end and front-end technologies
- Discussed highly scientific topics with doctors, lab technicians, and scientists to further develop software, which streamlined data analysis of genetic amplification
- Practiced Agile Software Development, lead sprint retrospective meetings, and attended daily stand up meetings

### Seapine Software

Jul 2013 – Oct 2014

*Software Quality Assurance Analyst*

*Mason, OH*

- Was a member of the QA team of the company's main software products TestTrack, Surround SCM, and QAWizard
- Worked as the main tester for integration of third-party software with TestTrack, the flagship software product
- Discovered over 100 defects of major severity which were critical to the product's development
- Created over ten different Linux distribution based test environments and scripted installations for faster test spinup times
- Configured and maintained RDBMS connections with SQL, Oracle, and PostgreSQL

## EDUCATION

---

### University of Cincinnati

May, 2016

*B.S., Information Technology, Application Development Track*

*Cincinnati, OH*

- Multiple semesters of making the Dean's List
- Member of ITSA
- Award winner for Senior Design project that forced a mobile phone into being a study tool instead of a distraction
